daylog eld

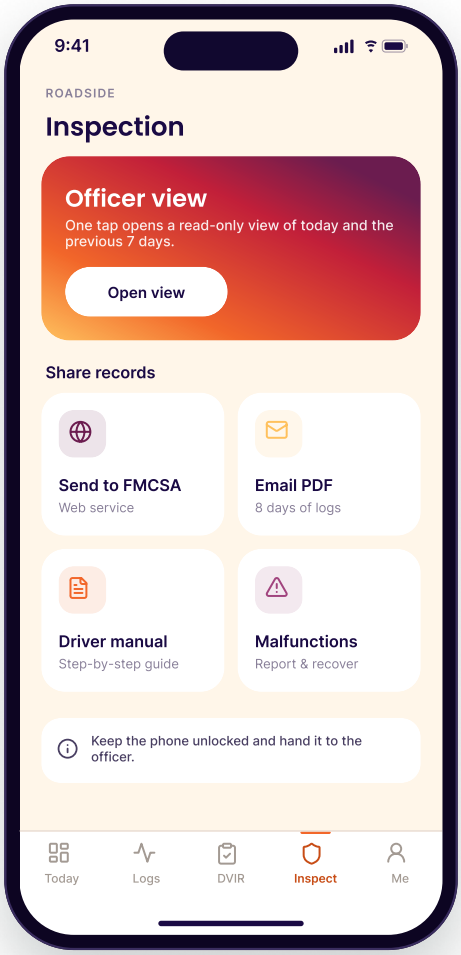

Roadside Inspection

Quick card for drivers · Daylog ELD

Must stay in the vehicle and be available during inspections — 49 CFR § 395.22(h).

Let the officer view your logs

1. In the bottom bar tap Inspect.
2. Tap “Open view” and hand over the phone. The officer sees today and the previous 7 days, read-only.

Transfer your records

1. On the Inspect screen tap Send to FMCSA.
2. Choose FMCSA web service (recommended) or Email to FMCSA.
3. Enter the output file comment the officer gives you.
4. Tap Send now and wait for the confirmation.

If the transfer fails

Show the read-only view instead and tell the officer. Then contact your carrier — failed transfers can be resent from Inspect › Send to FMCSA once you have signal.
