daylog eld

Connect your ELD device

Three steps before your first trip.

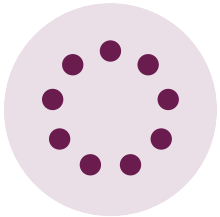

1 **Find the diagnostic port**
Usually under the dashboard, left of the steering column.

2 **Plug in the right cable**
Use the connector that matches your truck — see below.

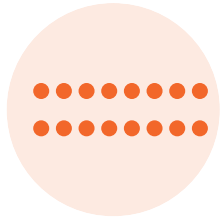

3 **Pair in the app**
Keep Bluetooth on and sign in. Me › ELD device turns “Connected”.

Cables

9-pin
J1939 · most trucks 2001+

6-pin
J1708 · older trucks

OBD-II
16-pin · light & medium duty
